

ICOVAC

Building Resilience against COVID-19 in the African Communities of Windsor

Do you identify as?

- An African
- 16 or older
- Living in Windsor-Essex County Area
- Fluent in English and/or French

If your answer is yes to all, then you are invited to participate in the ICOVAC Project.

ICOVAC is an innovative community-based outreach project to improve uptake of COVID-19 vaccine among African population living in Windsor-Essex County of Ontario, Canada.

It is an NSERC, and University of Windsor funded project to reach out to African communities in Windsor and Essex County about their well-being and to mobilize their collective efforts to build resistance against COVID-19 in African population through increased uptake of the vaccine and safe practices.
